WORK EXPERIENCE

FRONT-END SOFTWARE ENGINEER

Ministerio de Trabajo y Seguridad Social (MTSS) | San José, Costa Rica

Mar 2025 - Jun 2025

- Designed and developed a frontend solution to visualize a Power BI application for an observatory focused on the Social and Solidarity Economy model in Costa Rica.
- Implemented and integrated 7 interactive dashboards presenting socioeconomic indicators and analytical information.
- Developed data visualizations covering 7 provinces across Costa Rica, supporting territorial analysis and research activities.
- Designed a responsive and accessible interface to enable information access across desktop and mobile devices for potentially hundreds of public users, primarily students and researchers.
- Collaborated with stakeholders to gather requirements and adapt the solution to institutional needs within a Scrum environment.

Technologies & Tools: React, TypeScript, HTML, CSS, Power BI | **Domain:** Government Systems, Data Visualization, Public Information Systems | **Methodology:** Scrum

SOFTWARE DEVELOPER INTERSHIP

Desa Seguros | San José, Costa Rica

Nov 2024 - Feb 2025

- Designed, developed and supported features for SASEG, an insurance administration ERP platform used by national and international insurance companies and agencies.
- Implemented contact information dashboards with WhatsApp, SMS, and email communication components for customer interaction workflows.
- Contributed to process improvements that reduced manual prospect contact operations by 85%.
- Supported enterprise software solutions serving 15+ insurance companies while collaborating in a Scrum development environment.

Technologies & Tools: C#, .Net, WinForms/WPF, SQL Server | **Domain:** ERP Systems, Insurance Software | **Methodology:** Scrum

LANGUAGES

Spanish: Native.

English: C1 Level.

Japanese: A1 Level.
